Candle of Hope - An Interfaith Rite of Solidarity

The Jewish community is joining together with other religious communities across the faiths by inviting households to light a *Candle of Hope*. Please light a candle in a window on Fridays before lighting Shabbat candles, or on Saturday nights after Havdalah, to share the light with our neighbors. Please dedicate your *Candle of Hope* with a prayer of thanksgiving and concern for healthcare workers during the pandemic. Some of us may also wish to include others in their prayer, such as growers and food production workers.

Light a *Candle of Hope* before Shabbat or after Havdalah, display it in your window and pray for healthcare workers during the pandemic.
